Installation Procedures

This document provides a quick reference for installing the ORACLE Client Utilities onto a Sun Sparc Defense Information Infrastructure (DII) Workstation.

INSTALL PROCEDURE: ORACLE CLIENT UTILITIES (ORAU1) CONTENTS

This document contains the installation instructions for the ORACLE Client Utilities (ORAU1). This segment contains the ORACLE Import, Export, and SQL*Loader binaries for the Oracle Client. This segment requires the ORACLE Client (ORAC) Segment. The installation requires no user interaction after installing the segment via the COE Installer. ORACLE Client Utilities has no icon associated with it and upon installation, will be used by certain applications. For use of the COE INSTALLER, reference the DII System Administrator's Guide. For actual use of ORACLE Client Utilities, reference the ORACLE Client Utilities System Administrator's manual.
